SWIM LESSONS

Swim lessons accommodate varying abilities to help foster a sense of achievement as swimmers progress. This approach allows advanced swimmers to flow more easily to higher levels while swimmers who need more instruction can learn at their own pace. This results in more confident swimmers who stick with lessons and develop a love for swimming that can last a lifetime. Free swim level assessments are available.

Parent/Child: Stage A

Instructors use songs and games to encourage students and parents to learn skills, explore the environment and equipment used in swim lessons, and learn how to be safe in and around water. Child is required to wear a swim diaper if not 100% potty-trained.

Parent/Child: Stage B

Introduces and enhances understanding of the aquatic environment. Instructors guide students through a variety of skills including floating, the progression of going underwater, using swim equipment, forward underwater movement, arm and leg movements, and the fundamentals of self-rescue and water safety.

Stage 1: Water Acclimation

Child is still new to the pool. Purpose of the class is to increase comfort with underwater exploration and introduce basic self-rescue skills with the instructor's assistance.
